

Akeneo Datasheet Service

Automatic creation of datasheets from the Akeneo PIM

The power of an automated publishing system at your fingertips

Wouldn't it be nice to be able to generate PDF data sheets directly from your Akeneo PIM data? Automatically?

Thanks to print:suite and Akeneo, this is now possible. Simple. Unique. Cost effective. Fast.

1. Select one of our ready to use data sheet templates. They can be customized by our services if needed.
2. Add 3 attributes to your Akeneo PIM, so that users can trigger the creation of data sheets on the fly.
3. Manage your data sheet product data in your Akeneo PIM- Not to worry, we will help you define or add the necessary attributes as needed.

Via standard web services connection between your Akeneo PIM server and our cloud-based print:suite server, your product data will be sent to our server, paginated in the selected data sheet layout of your choice, and a PDF will be generated, in just a few seconds.

When done, your PDF data sheet will be sent back to your Akeneo server, the file will be uploaded in the Akeneo Asset manager and linked to the selected product.

You can create as many versions, products, languages of your data sheets as you want. You can create new versions when your product data changes or whenever you need to.

No need for design software or design knowledge, the complexity of generating data sheets is simple, straightforward and available to all your users directly from your Akeneo server.

Publishing made very simple.
Thanks to print:suite and Akeneo.

The screenshot displays the print:suite interface. On the left, there's a 'Family name' section with a product image and a 'Publication Print' section with a list of actions like 'Marcher sur la grande muraille de Chine'. The main area shows a 'PRODUCT CATEGORY' and 'PRODUCT NAME' section with a detailed description of a shower head. Below this is a 'CLOUD PRODUCTS' table with columns for REF., LON., and COND. The right side shows a 'REFERENCES ET CONDITIONNEMENT' table with columns for REF., RD, EP, LON., LARG., COND., and DISPO. At the bottom, there's an 'APPLICATION' section with a list of actions like 'Marcher sur la Grande muraille de Chine' and 'Visiter le Colisée de Rome'.

Our Partner

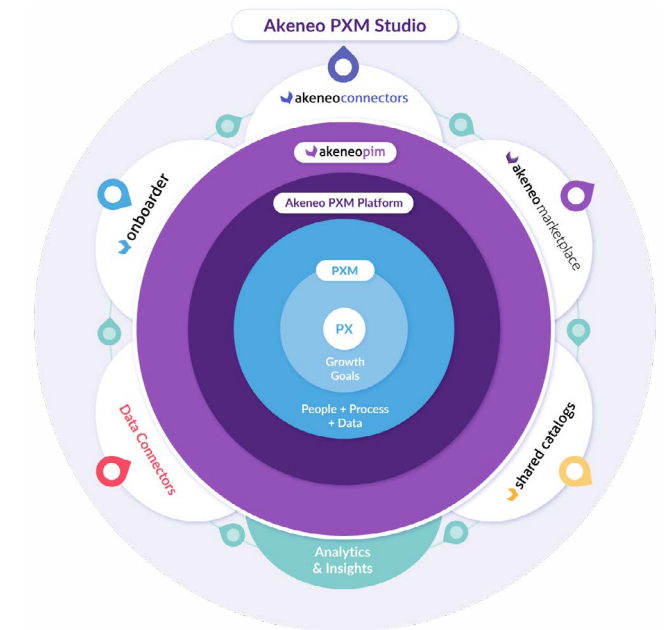

Akeneo #1 Open source & Enterprise PIM

Akeneo is a global leader in Product Experience Management (PXM) solutions that help merchants and brands deliver a compelling customer experience across all sales channels, including eCommerce, mobile, print, and retail points of sale.

Akeneo's open source enterprise PIM, and product data intelligence solutions, dramatically improve product data quality and accuracy while simplifying and accelerating product catalog management.

Leading global brands, including Fossil, Staples Canada, Made.com, and Warner Music Group, trust Akeneo's solutions to scale and customize their omnichannel and cross-border commerce initiatives. Using Akeneo, brands and retailers can improve customer experience, increase sales, reduce time to market, go global, and boost team productivity.

Unlock growth with best in class product experiences.
